Ahmad had real initiative the first semester. The cane was initially his idea. He supported me with research and our parts list. Second semester he seemed busy with loads of school work and his overall contribution fell. He tried to help with the hardware set up best he could.

What are his/her greatest strengths

EEE knowledge

What areas needs attention

Time management, busy with other classes and finals

Eric doesnt have the best technical knowledge, however his time managment and leadership kept the group together. His flexibility to show up whenever i needed him was amazing. He sacraficed a lot of time to be on standby if i needed new parts 3C 3D printed and worked with my closely on design and implementation.

What are his/her greatest strengths

Organizational/Time Management/Flexibility/Documentation

Devs biggest contribution was building our app. He supported me in understanding how the UART protocol worked and ultimately help me understand how to setup our bluetooth module to work with the app.

What are his/her greatest strengths

Programing and coding.

What areas needs attention

N/A

I took on a majority of this semesters work. After revisioning our game plan for what we wanted to do i took hold of all the hardware. I built, tested, soldered, wired, coded, and programmed the cane. I worked closley with Eric to design the 3d prints and construcion of our design.

What are his/her greatest strengths

Hardware/Software/Mechanical technical Knowledge

What areas needs attention

N/A
